1.	This opinion contain	ns indication	ons relating to the follo	owing items:		
	☐ Box No. I Basis of the opinion					
	☐ Box No. II Priority					
	Box No. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability					applicability
	☐ Box No. IV Lack of unity of invention					
	Box No. V Reasoned statement under Rule 43 <i>bis</i> .1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement					
	Box No. VI Certain documents cited					
	☐ Box No. VII Certain defects in the international application					
	☐ Box No. VIII Certain observations on the international application					
2.	FURTHER ACTION					
	the applicant chooses	nternationa an Authori Inder Rule (	iminary examination is n al Preliminary Examining ty other than this one to 66.1 <i>bis</i> (b) that written o	Authority ("IPEA"). H	owever, this does no	t apply where

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2005/004478

Day No. 1 D					
Box No. I Basis of the opinion					
<ol> <li>With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.</li> </ol>					
☐ This opinion has been established on the basis of a translation from the original language into the following language , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).					
With regard to any <b>nucleotide and/or amino acid sequence</b> disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:					
a. type of material:					
□ a sequence listing					
☐ table(s) related to the sequence listing					
b. format of material:					
☐ in written format					
☐ in computer readable form					
c. time of filing/furnishing:					
$\square$ contained in the international application as filed.					
$\square$ filed together with the international application in computer readable form.					
☐ furnished subsequently to this Authority for the purposes of search.					
In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.					
4. Additional comments:					

### WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2005/004478

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)

Yes: Claims

No: Claims

1-22

Inventive step (IS)

Yes: Claims

No: Claims

1-22

Industrial applicability (IA)

Yes: Claims

1-22

No: Claims

2. Citations and explanations

see separate sheet

#### Box No. VI Certain documents cited

1. Certain published documents (Rules 43*bis*.1 and 70.10) and /or

2. Non-written disclosures (Rules 43bis:1 and 70.9)

see form 210

# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY (SEPARATE SHEET)

International application No.

PCT/US2005/004478

#### Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following document:

D1: SHAO LEI et al.: "Rate-one Space Frequency Block Codes with Maximum Diversity Gain for MIMO-OFDM", IEEE GLOBAL TELECOMMUNICATIONS CONFERENCE, GLOBECOM 2003, vol. 2, 1 December 2003, pages 809-813, XP010678177

The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

The document **D1** discloses (the references in parentheses applying to this document) a method comprising the steps of:

- receiving content for transmission (s, fig. 1) for a plurality of transmit antennas (1, ..., M); and
- generating a rate-one (see section II-A) space-frequency code matrix (C, fig. 2) from the received content for transmission.

The same reasoning applies, mutatis mutandis, to the subject-matter of the corresponding independent claims **9** and **16**, which therefore are also considered not new.

Dependent claims 2-8, 10-15, 17-22 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty, see document D1 (see sections II and III).
